Digital Finishing for Digital Printers

# CardXtra Plus

Multi function finishing machine.
A cut and crease above the rest.

- 140 business cards per minute
- Highly accurate
- Cut & crease in one pass
- Rule and matrix guaranteed for life
- Takes stock up to 0.015" (approx 150lb cover)
- Fully programmable
- Million cut guarantee
- Choice of optional plug-in cutters
- Image tracking registration mark

It can feed sheets up to 12" x 19" in size and can trim, cut and crease in multiple positions. The accuracy of the new CardXtra Plus is the best available in the market and significantly better than that of many more expensive units. Accuracy of +/- 0.003" makes the CardXtra Plus between 5 and 7 times more accurate than competitive models and provides a much better investment for your business. The addition of a unique registration mark allows the machine to track the image as opposed to the sheet edge, making it perfect for the digital environment.

When producing business cards an average run of 250 cards can be finished in less than 2 minutes. A small job such as this that would previously have needed 18 cuts on a guillotine can now be offered as an “on demand” service.

The versatile CardXtra Plus now has the ability to take 12" x 19" sheets, trim them to 11" x 17" and crease them to pr oduce finished 8.5" x 11" 4 page brochures. Equally easily it can finish the job to 8.5" x 11" which can then be creased to make 4 page 5.5" x 8.5" leaflets or multiple creases for a wide variety of applications.

Finished by Morgana on the CardXtra Plus Automatic Finishing System.
